1972-74 Cumulative Indexes to Psychological Abstracts

These three-year **Indexes** contain all records published in the *Psychological Abstracts* from January 1972 through December 1974. Two kinds of indexes are available:

The Subject Index consolidates references to the world's literature in psychology and related disciplines that were summarized in 36 monthly issues of *Psychological Abstracts*. Index terms representing the major concepts described in this literature have been applied. Phrases describing subject matter content appear under each term, enabling the user to select those references which are relevant to their needs and interests. Entries in the index contain subject index terms, *see* and *see also* reference listings, descriptive phrases, and *PA* volume and record number (two volumes).

The Author Index contains references to authors who produced material that was summarized in 36 monthly issues of Psychological Abstracts. As many as four authors are referenced for each entry. Thus, all the publications of individual investigators who conduct programmatic research in collaboration with others can be easily identified. Primary entries in the index contain up to four author's names, title of source document, year of publication, volume and issue numbers, inclusive pagination, and PA volume and record numbers. Secondary authors are listed by name only, with a cross-reference to the primary author and PA volume and record number (one volume).

The Cumulative Indexes for 1972-74 utilize index terms from the new APA Thesaurus of Psychological Index Terms. The size of the Indexes remains compatible with those published previously. Pages are 10 x 14 inches,

printed on durable acid-free paper, and encased in Class A library binding.

length of exposure to high altitude, immediate memory for objects & sorting efficiency & perceptual speed & efficiency of routine mental work & concentration, healthy male adults, 5271

level of required organization & size of set & position & spacing of letter set in alphabet, RT in organization of randomly ordered letters, college students, 1770

list composition & item sorting techniques, clustering of free recall, kindergartners vs 6th graders, 5774

list items presented in blocked vs random order & frequency of association, immediate & delayed free recall of categorically related list items, college students, 1799

list organization & retrieval cue factors, retrieval strategies in free recall task with categorized lists, 5th graders vs college students,

major life events, sorting of post high school age people into subjective age categories, adults, 4032

memory & display search, binary classification RT, 1686

memory set of category items & parallel vs separate scanning, scanning for category membership or physical identity, college students, 1754

mnemonic organization & processes of organization & free recall of words, schizophrenics vs normal Ss, 806 number of categories & number rehearsed, recall in keeping-track

tasks, college students, 5317

overinclusion & editing tasks, schizophrenics vs normal controls,

positioning of probe character within generative sequence of target characters, probe encoding time in character classification task, college students, 5270

presentation rate, categorization of acoustically & semantically related words, college students, 1757

proactive interference release as measure of encoding of taxonomic word category attributes, undifferentiated vs paranoid schizo-phrenics, 8144

procedures requiring 1 vs 2 finger response, RT in binary classification experiments, college students, 5266 psychological functions of verbal labeling in recognition & learning, 9211

rehearsal of target characters, RT in character classification task, college students, 1775

"remember" vs "look" instructions & practice effects, behavioral vs metamnemonic indicators of strategic behaviors in free recall, 1st graders, 9691

rotation of pictures into unfamiliar orientation & general vs specific

category names, individual differences in perceptual processing in matching words-to-pictures task, college students, 3381 same vs different semantic category of target & context words & target set size, target presence or absence search rate, college students, 7181

semantic distance, response latencies in similarity judgments & RT in same-different classification & proximity of recall in free recall, college students, 5285

semantic relatedness of irrelevant words or symbols to sorting criteria, interference in sorting stimulus cards according to color

vs spatial position vs numerosity, college students, 5253 semantically related vs unrelated associates varying in associative strength & frequency, clustering in free recall, college students,

sentences in active vs passive voice & containing vs not containing adjective modifying categorizable noun, free recall & clustering of sentences, college students, 141

sequential patterns of ordered events & hierarchical & nonhierarchical series in serial pattern learning, digit prediction & transposition & mirror image & inversion & temporal symmetry operations, college students, 7193

sequentially ordered instruction vs Guided Discovery vs Directed Instruction approaches, multiple classification skills, educable mentally retarded 9-13 yr olds, 6811

set size & set relation of information held in long term memory, RT for making universal affirmative & particular affirmative decisions, 130

sex & attendance in public vs parochial school, association norms for verbal items in 6 categories, 4th & 5th graders, 7573

socioeconomic status, categorizing ability, kindergartners, 7644 spoken descriptive labeled vs unlabeled pictures, recognition accuracy & RTs, adults vs 5 yr olds, 507

stimulus probability, same-different classification time in letter judgment task, 9163

stimulus uncertainty, average RT & errors of recognition for tachistoscopic presentation of nonsense syllables, 9224

strategic & semantic aspects, answers to class inclusion problems, preschoolers, Piagetian logical model vs problem processing model, 3850

strategy training &/vs verbal self instruction, Matching Familiar Figures & sorting task errors & response times, impulsive 1st & 2nd graders & educable mentally retarded special education students, 10739

structural vs semantic word categorizing in incidental learning task, recognition memory & stimulus-processing mechanisms, 8 vs 10 vs 12 yr olds, 9698

superordinate hierarchical model, developmental shifts in semantic organization, 6 vs 11 yr olds, 2153

task complexity, individual differences in information processing during classification learning, high school students, 6757

taxonomic category & evaluative meaning as encoding attributes, 2nd vs 6th graders, 5314

terminating & exhaustive search process, lexical access in classification of test items, college students, 1795

traditional vs discovery classroom types, development of classification skills, 3rd graders, 10628

visual & auditory presentation modality & conceptual dimensions as encoding categories, short term memory, 2nd graders, 7632 visual vs verbal stimulus set, letter classification task, college

students, 1758

vocabulary size & word frequency, semantically vs graphemically cued retrieval of words from long term memory, college students,

word interference, speed of categorical classification of ink colors, college students, 5252 words with masculine or feminine connotations, sex role preferences

in short term recall of words, male & female 7 & 10 yr olds, 3828 written advance &/vs post organization, learning & immediate & delayed recall of prose material, college students, 2963

individual student rates of volunteering of answers, rate of teacher directed questions to individuals & percentage of volunteering approved in 1st & 3rd mo of term, high school teachers, 2993

ridually guided education vs closed self-contained school vs Westinghouse Program for Learning in Accordance to Needs, classroom behaviors in open-spaced structure, 1st & 6th graders, 2876

induced teacher expectations, academic & social behavior, 1st-6th graders, test of Rosenthal & Jacobson model, 10734

inservice training of classroom management skills, changes in skill usage & pupil work involvement & disruptive behavior, elementary school teachers, 1312

integrated vs segregated school setting, actual & perceived classroom aggression in self & others, black vs white 3rd graders in rural South, 8752

integration into regular classroom vs segregation, prosocial & verbally & physically aggressive classroom behaviors, educable mentally retarded 8-11 yr olds, 4908

linguistic analysis, verbal responses to teachers' questions, disadvantaged kindergartners, 10725

observational investigation of classroom behavior & instruction materials & program goals, assessment of early childhood educational programs, 3 & 4 yr olds & teachers, 2885 observational method, monitoring student disruption & attention &

teacher's use of positive & negative events, paraprofessional teacher aides, 6794

open-ended classroom meetings, verbal participation & impulsive behavior & hyperactivity, learning disabled 10-11 yr olds in special education class, 4936

overt behavior in classroom, referral vs nonreferral 2nd-4th grade boys, 6775

participative practices in classroom & outcomes, 3rd graders, 10706 peer counseling group approach program, self concept & school learning performance & attendance & classroom behavior & educable mentally retarded & socially maladjusted potential high school dropouts, 6862

peer group reinforcement, talking-out in classroom, 7-11 yr olds, 4873

perceived personality impressions in acceptance & rejection classroom interaction patterns, 6th graders, 4865 persons acting as stimulators of positive classroom processes in

course discussion sections, achievement & attitude change, college students, 1452

prevalence & factor structure of behavior symptoms, 1st-7th graders in regular vs special education classes for emotionally & learning

race & social class & dialectical differences, judgments of academic ability & school behavior, black vs white junior high school teachers, 2829

regular vs integrated special education programs, academic achievement & classroom behavior & self esteem, emotionally disturbed & educable mentally retarded & learning disabled

reinforcement of direct academic performance &/or facilitative nonacademic classroom behaviors, increasing academic achieve-ment & levels of appropriate classroom behaviors, 1st-3rd
